

# PROSPECTUS 2019

# THE UNIVERSITY FOUNDATION PROGRAMME

The University Foundation Programme (UFP) is a **one-year course** that prepares students for admission to top UK universities. It is an **alternative qualification equivalent to A-Levels and International Baccalaureate (IB)**.

## ESTABLISHED IN 1989

Our course was the first independent foundation programme in the world. Our long-standing reputation and experience makes us a leading provider of foundation courses in the UK. That's why our qualifications are accepted by over 100 institutions.

Small class sizes and individual attention allows our students to perform well. We are proud to say that every single UFP graduate has gone on to secure a place at university. To make sure we consistently meet expectations, our courses are accredited by:

- External Examiners from six top UK institutions;
- Ofsted; the British Council; and Leading UK universities

Because we are independent, we are always able to do what's best for our pupils. We never bend to the financial interests of other institutions. When it comes to university applications, our advice and guidance is based on our students' preferences, not quotas or agreements.

With courses starting in September or January, you can study in two great locations, London or Bath.

# 3 THINGS MAKE US DIFFERENT

**1 Unmatchable Experience**

Over the 28 years we have been running, we have seen thousands of successful students go to university. In a typical year we have over 50 different nationalities, allowing our students to make friends they'll keep for life. We support them every step of the way and ensure they develop personally as well as academically. With us, you can rely on capable and competent professionals.

**2 A Quality Education**

We have a 100% success record of sending UFP graduates to top universities. Passing our exams will ensure offers from top institutions. Most importantly though, we prepare our students for the challenge ahead allowing you to make a smooth transition to undergraduate level.

**3 Freedom to Choose**

Our independence allows students to consider multiple universities and apply for degrees that best suit them. Throughout the process, our staff can offer extensive educational and career advice. We also allow our students to choose their course modules according to their future subject area. At UFP, we strive to treat our students as individuals, not as a production line.

# LIFE AS A STUDENT

## In The Classroom

We realise that students have to remain happy, challenged and well-motivated if they are to reach their potential. Small class sizes allow us to work with students on an individual level. This way, we ensure they get the attention they need.

Whilst we treat students as adults, we closely monitor attendance and progress. In order to meet high academic standards it is vital that students attend regularly. A UFP course typically involves 22-28 hours of lesson time per week. This is supplemented with 10-15 hours of private study.

## Social Life

We encourage students to have an active and varied social life outside the college. The college also organises a social programme. London and Bath are well known for their cultural sites and attractions. Whilst we make the most of what's on offer locally, we also arrange trips away. Here's an example of the kinds of things we do:

- **Sporting Activities** (e.g. football, basketball and swimming)
- **Societies and Clubs** (e.g. debating, cinema and salsa)
- **Trips in the UK or Abroad** (e.g. Oxford, Cambridge or Barcelona)
- **Social Events** - (e.g. paintballing, ice skating or eating out)
- **Subject-relevant Activities** (e.g. galleries, museums or even a visit to the BBC)

## Student Support

Students can express any concerns or opinions to their Personal Tutor. To help students choose the best course and university we also host regular workshops and one-to-one meetings. Parents are informed about their child's wellbeing as well as their progress during their time with us.

"THE TEACHERS AT UFP WERE EXCELLENT AND I PARTICULARLY ENJOYED THE MULTICULTURAL ENVIRONMENT. I HAVE MADE FRIENDS FROM MANY DIFFERENT COUNTRIES"

# STUDY IN LONDON OR BATH

With the UFP you can study in one of two great locations. Rest assured, you'll get the same great quality education, syllabus, assessments and course structure.

LONDON DAVID GAME COLLEGE

BATH

There's a reason London is voted one of the best student cities year after year. The opportunities young people have here are unrivalled. As a global city, London makes for a truly international experience. A place where students can mature, network and learn foreign language skills.

## David Game College

Established in 1974, David Game College has now become one of the leading Independent Colleges in London. With an outstanding track record of quality, the college aims to balance the joy of learning with the demands of examinations. Whilst their intake is mostly UK students, each year we welcome hundreds of international students from over 50 different countries.

## Student Life

David Game College is located in its new location in the John Cass Foundation building, one of the world's oldest and most respected educational foundations. The college building has undergone a major renovation work to provide students with superior, spacious, modern, highly equipped facilities and a comfortable learning environment.

Whilst the area is lively, the college provides a safe location for students to make friends and study. Class sizes are small so pupils get personal attention from their teachers. College staff are highly experienced and aim to keep students challenged and well motivated. Outside of lessons, there are plenty of clubs and activities students can get involved in, such as sports and societies.

With its green countryside and historic setting, Bath is a strong contender for England's most beautiful small city. Known for its Roman baths and elegant architecture, the entire city qualifies as a UNESCO World Heritage Site. With a calm yet vibrant atmosphere, it gives any international student a true taste of English culture.

## Bath Academy

Established in 1997, Bath Academy is an independent college situated in the heart of the city. It aims to create a stimulating, active and supportive environment for their students. With a mixed intake of British and international students each year, the college provides a welcoming environment where everyone can learn.

## Student Life

Bath Academy is situated in a charming Georgian building opposite a leafy garden square. Whilst the city is small, it is accessible and there's plenty to do. Prominent theatres, festivals, sights and attractions make it interesting all year round. With several other academic institutions within walking distance, the city has a youthful atmosphere.

Lessons are taught in small groups to ensure that pupils and tutors work closely together. It also allows staff to tend to the individual needs of each student. The college provides a varied calendar of parties, sports and trips away. Bath is located only one and a half hours from London by train and is well served by road and rail networks.

# ENTRY REQUIREMENTS

## Entry Requirements

Our students come from all over the world and our entry requirements vary. **Our website contains details for each specific country in the 'Requirements' section.** In general, we expect students to have completed secondary education and have strong English language skills.

## IELTS for UKVI

Students must also have completed an IELTS for UKVI (International English Language Testing System for United Kingdom Visas and Immigration). This is a test of English language proficiency. We expect our students to get 5.5 or above.
